

telli health 4G

BLOOD PRESSURE MONITOR

Telli Health's 4G Blood Pressure Monitor is the cheapest 4G device on the market and one of the easiest to use. This device combines the traditional testing kit (with multiple components) into one simple device with cellular-enabled 4G technology. This device is easy-to-use, durable, reliable and accurate.

In addition to the convenient design, the Telli Health 4G Blood Pressure Monitor ties into any software platform. Please refer to our Developer's Guide for integration steps.

FEATURES

- **Accurate 4G Blood Pressure Monitor Model U807:** Blood pressure monitor for home use, can accurately track your high or low blood pressure every day with the 180 sets memory. Accuracy ± 3 mmHg. On the right side of monitor screen, you can view the Diastolic, Systolic and Pulse Rate data upon the BP machine finished working.
- **Two Power Options AC Power Adapter** (not included) or 4 x AA batteries (included).
- On the right side of the monitor screen **you can view the Diastolic, Systolic and Pulse Rate data** once the BP machine is finished working.
- **Adjustable Large BP Cuff Monitor** for upper arm 22-42cm / 8.7-16.5-inch circumference. Connecting the BP cuff with the monitor can be automatically working. On the left side of the monitor screen is the color to distinguish blood pressure.
- **FDA certified and C-E certified**, track up to 3 months of readings for your doctor. If you suffer from hypertension or hypotension, daily use our blood pressure Monitor to track blood pressure values, your doctor can offer more accurate diagnosis and treatment.
- **One-Touch Operation and Carry Case:** The Blood Pressure Monitor is fully automatic, just need to press one "Start" button to measure your blood pressure and heart rate. Entire process takes less than 30 seconds.
- **Lightweight and fits in a convenient case** so that you can take it with you anywhere.
